

ARTA ONLINE TRAINING AUSROOFTILES.COM.AU

ARTA ONLINE LEARNING HAS BEEN CREATED TO PROVIDE BACKGROUND INFORMATION ON THE ROOF TILING INDUSTRY AND PRODUCTS

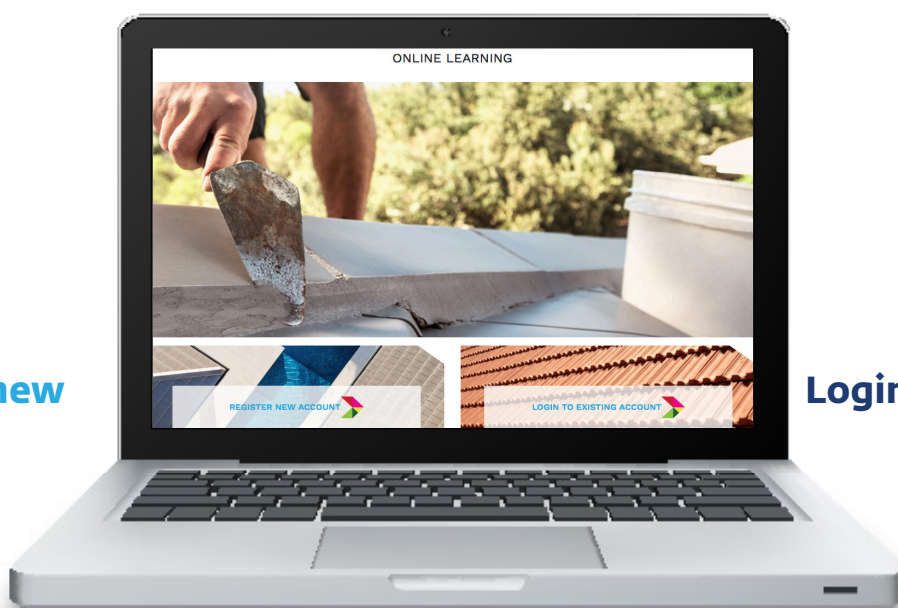

The training program can be accessed through the ARTA website within the 'Online Learning' tab under the 'About Us' pane.

After you click on '**Online Learning**' you will be taken to the Online Learning System. There are 2 options to choose from on this page:

1.

Register a new account

2.

Login to an existing account

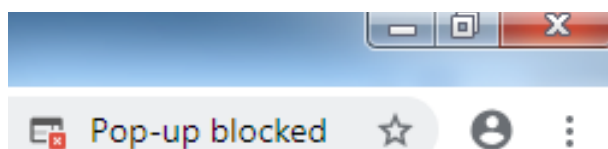

Once you have registered, you will receive a welcome email with your **username** and **password**. You will need this every time you login.

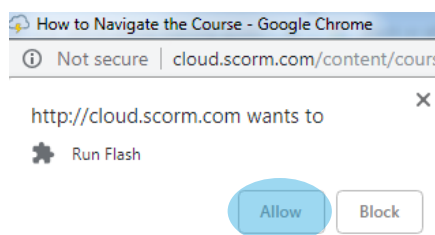

Once registered, users will be able to access the learning modules and complete the assessment. Users can complete the modules any number of times, but **must achieve at least 80% on the assessment at the end of each module before proceeding to the next module.**

The modules have been developed, tested and optimised for Google Chrome. Other browsers, such as Internet Explorer, may not be able to run the modules.

To access the modules, ensure that your pop-ups have been enabled for the site.

To display images within the module, ensure that Flash is running. You will be able to allow Flash once you are inside the module.

Note: The Australian Roofing Tiles Association has recently rebranded from RTAA to ARTA, however this change has not yet been reflected within the modules.
